## PROFESSIONAL SUMMARY

Pharmacist with 11+ years of Saudi retail pharmacy experience, transitioning into Data Analytics and Business Intelligence. Built an interactive Power BI case study using 150,000 synthetic sales lines, dimensional modeling and DAX. Combines practical knowledge of sales, insurance workflows and pharmacy operations with SQL, Python and KPI reporting.

## CORE SKILLS

Power BI, DAX, Power Query, dimensional modeling, KPI reporting, Tableau  
SQL, SQL Server, CTEs, window functions, Python, Pandas, NumPy, Excel, Git  
Data cleaning, exploratory analysis, data validation, sales and inventory analytics

## SELECTED ANALYTICS PROJECTS

### Saudi Pharma Commercial Intelligence

Power BI, DAX, Power Query | Independent portfolio project | Synthetic data

- Modeled 150,000 sales lines and 48,613 invoices using 3 fact tables, 7 dimensions and 11 active relationships for sales, target and inventory analysis.
- Built 6 report pages with 70 DAX measures and helpers covering sales, margin, target attainment, customers, agent performance, stockouts and expiry exposure.
- Published an interactive report and case study with metric definitions, model validation, a user guide and documented filter limitations.

Case study and live report: [shamsinsights.com/saudi-pharma.html](https://shamsinsights.com/saudi-pharma.html)

### Pharmacy Enterprise Data Warehouse

SQL Server, Python | Independent portfolio project | In progress

- Developing a pharmacy warehouse with synthetic source data, Bronze ingestion and validation; Silver and Gold transformations remain in progress.

## PROFESSIONAL EXPERIENCE

### Pharmacist | Al-Dawaa Medical Services Company

Saudi Arabia | February 2015 - Present

- Support community pharmacy operations across patient service, sales, insurance workflows and daily branch requirements.
- Spent four years in a major branch, contributing to sales growth and insurance-related improvements through customer service, accuracy and process adherence.
- Develop practical knowledge of retail KPIs, customer behavior, product movement and insurance workflows through daily pharmacy operations.

Pharmacist | Misr Pharmacies | Giza, Egypt | October 2013 - December 2014

## EDUCATION AND TRAINING

Bachelor of Pharmacy | Alexandria University | 2013

SQL (30 hours), Tableau (20 hours), DataCamp Python and Power BI coursework

## LANGUAGES

Arabic: Native | English: Upper-intermediate | German: Beginner
